Damping coefficients

FRFs

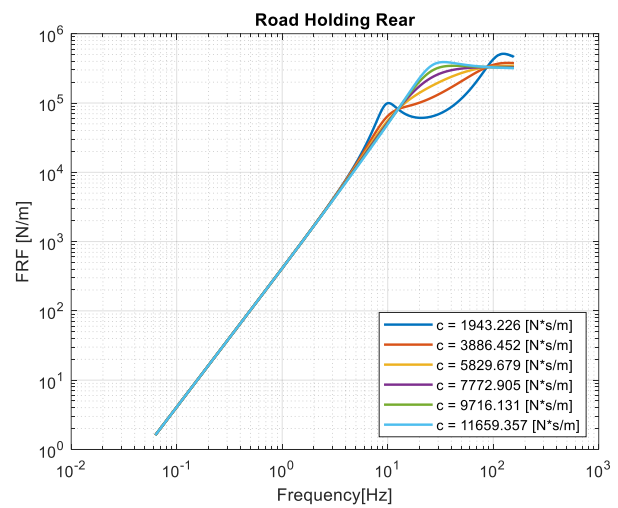

Discomfort

$$\left[\frac{\ddot{Z}_s}{Z_r} = \frac{s^2 Z_s}{Z_r} \right]$$

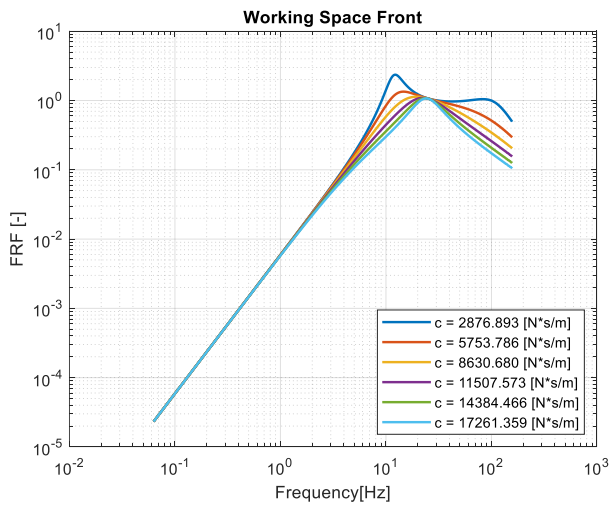

Road holding

$$\left[\frac{F_z}{Z_r} = (c_t s + k_t) \left(\frac{Z_u}{Z_r} - 1 \right) \right]$$

Working space

$$\left[\frac{z_s - z_u}{z_r} = \frac{Z_s - Z_u}{Z_r} \right]$$

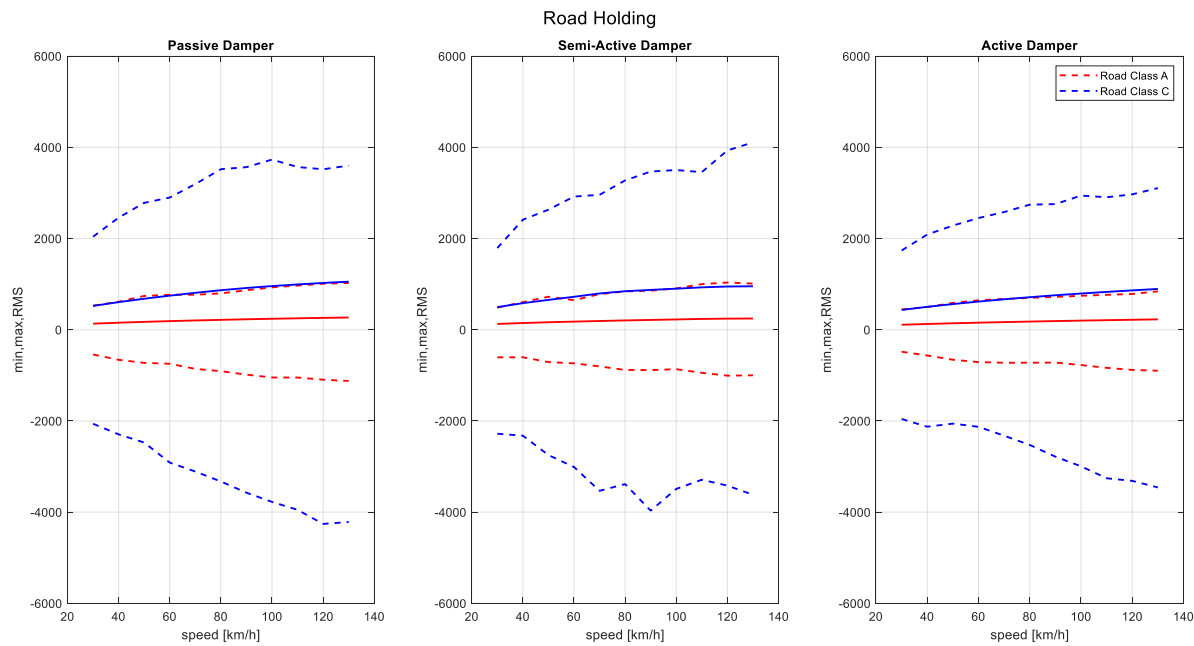

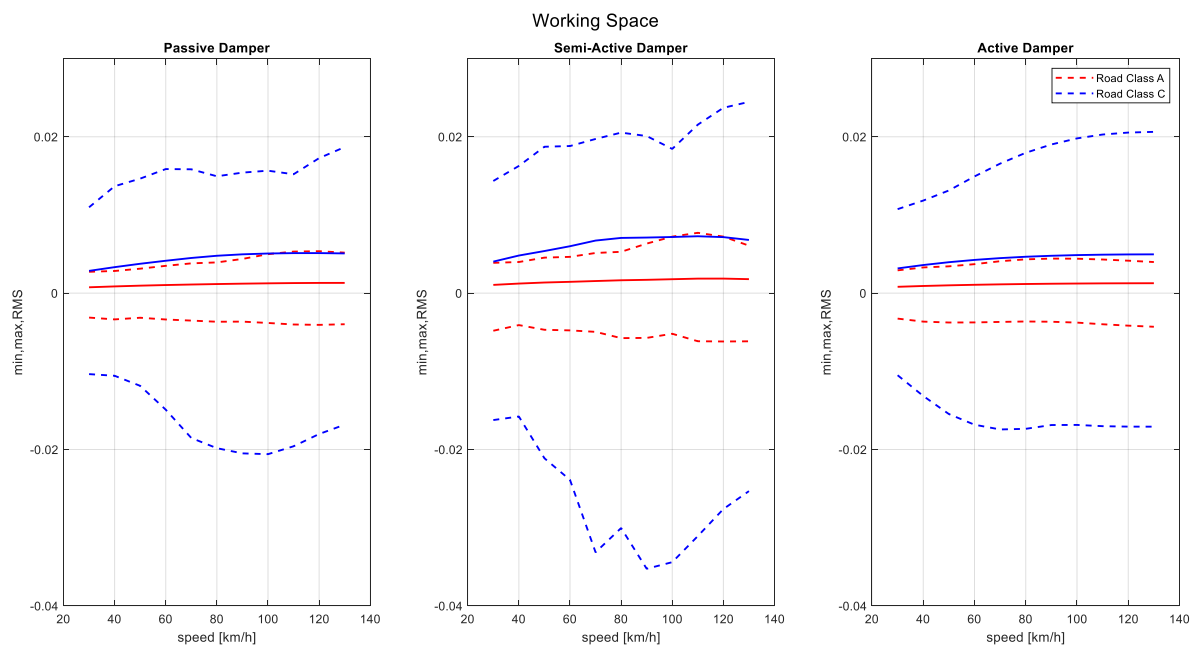

Comparison between road irregularities

Comfort index

Road holding

Power dissipated
